

Driven by Innovation

A Combination line consisting of our
World's fastest P7 Pleater.
NEW! – Made in Switzerland

P7

HIGH-SPEED Pleater 400 pleats/min

Since 1996 JCEM stands for highest technology, precision machinery, innovative CNC pleating solutions. Swiss Made.

We have developed our 7th Pleater Generation P7 and reached 400 pleats/min running 24h/7days, process approved.

High-speed CNC Blade Pleaters

Our customers enjoy multiple benefits from our high quality machinery and peripherals, like unwinders, slitters, cutters and minipleat systems. From single pleaters to complete production lines. Blade pleater widths from 500–3000mm have been successfully build. Pleat heights from 3–300mm realized.
